

LEMESA AHMED

SOFTWARE ENGINEER STUDENT

CONTACT

- +251934086836
- lemessaahmed34@gmail.com
- Dire Dawa Ethiopia

EDUCATION

- 2023-2028
HARAMAYA UNIVERSITY
- BSc in Software Engineering

SKILLS

- Backend development
- Ai Engineering
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

PROFILE

Aspiring AI and software engineer with hands-on experience in building and publishing advanced AI systems focused on agentic AI and retrieval-augmented generation (RAG) technologies. Passionate about developing autonomous, decision-driven AI solutions that integrate knowledge retrieval with intelligent workflow orchestration to solve complex problems efficiently and reliably. Demonstrated expertise through multiple publications on Ready Tensor, including cloud-native multi-agent intelligence platforms and RAG optimization with observability and memory enhancements. Strong communicator with a commitment to documenting technical work clearly for both technical and non-technical audiences. Actively expanding skills in modern AI architectures, LLM engineering, and autonomous agent design to deliver innovative AI-first software solutions.

Work experience

RAG(Magarsa research)

- Built and experimented with intelligent systems including LLM-based workflows and retrieval-augmented generation (RAG) concepts

Work experience

Puplication: AgentSphere: Cloud-Native Multi-Agent Intelligence Platform with Router Pattern at ready tensor.inc
